

SMARTRIVERSIDE

Digital Inclusion Program

Help a Riverside Family get a Free PC

SmartRiverside is a 501(c)(3) non-profit organization that needs your assistance. By donating your used computer systems (working or not), you can help to provide low income students and senior citizens with computers that they otherwise could not afford.

Each PC will be refurbished by SmartRiverside who hires at risk youth looking for a second chance at life to become computer technicians. All the computers will be give with Microsoft Windows, Microsoft Office, and a wireless access device to access the City of Riverside's WiFi network.

PCs will be given to families with combined total income levels under \$45,000 and who enroll and complete a free 8-10 hour technology training course. SmartRiverside's goal is to get a PC to every household in Riverside. Please help us achieve this goal by upgrading your systems every three years and donating your older equipment to SmartRiverside. To coordinate a drop off or pickup (for large quantities), Please Contact:
