 Victoria Club**

**- Promote Digital Inclusion -  
FREE PC to Low-Income Households  
in Riverside**

SmartRiverside's mission is to improve the quality of life for those who live, work or play in Riverside through innovative, targeted technology projects and related community economic development initiatives.

Technology continues to be at the very core of our organization. The SmartRiverside Board of Directors has determined that for the community of Riverside to reach its full potential, the power of technology is a key component.

**- Digital Inclusion Program -**

The SmartRiverside Digital Inclusion Program provides refurbished computers and technology training to low-income resident families and students. Over 8,000 families have already benefited from this program.

Computer equipment is donated by local businesses and residents and then refurbished for underprivileged youth, providing them free training in the information technology field.

Each refurbished computer is loaded with a Microsoft Windows operating system and Office suite.

**All proceeds go to the SmartRiverside  
Digital Inclusion Program**
